Results of School Entry Medical Examinations

Below is the Result of today's Medical Examination.

NOTE

☐**No disease / abnormality was found**☐**Found diseases / abnormalities marked in the list below.****Recommend to visit a medical institution for consultation by school enrollment.**☐

Your child is missing some vaccinations to be done by now. Be vaccinated as much as possible before school starts. Contact a family doctor or Health Promotion Division (048-256-1135) if you have questions. Note that children who had taken DPT or IPV (Polio vaccine) instead of DPT-IPV (or DPT-IPV+Hib) are also noted here; this is from the reason that schools have difficulty in confirming specifics of each pupil's vaccination history.

Dept.	Disease / abnormality (circled)	Result of treatment, etc.
I Internal Medicine	Malnutrition, Spinal deformity, Thoracic deformity, Infectious dermatological problem, Dermatological problem caused by allergy, Cardiac murmur, other ()	Name of Medical Institution 1 Treated (Consulted) 2 Treating • In follow-up care 3 Have not seen a doctor
