

## Request to all residents

We know perfectly well how nuisance it is, but do wear a face mask to protect people you love

**Wear a mask inside the house**

Who knows who has got infected?!

How am I supposed to expose my beloved ones to such viruses?

So, I decided to “Wear a face mask inside the house”.

- When you inevitably visited a place where the risk of infection is considerably high
- If you are living with older adults, people with underlying medical conditions
- When you have a high body temperature, or you think you do not feel well

Kawaguchi City
