

【 *Asahi-Kankyo* Center(garbage disposal plant) fire 】 Temporal Garbage Disposal Method till we get back the normal operation

We are afraid we have put all the residents to a great deal of trouble and inconvenience from the fire occurred at *Asahi-Kankyo* Center.

Till the restoration of the facility of *Asahi-Kankyo* Center is completed, we will partly alter garbage disposal rules. See the following for altered rules.

“Lighter”

Empty the content. Do not mix in Kitchen Garbage. Put in a bag and write “有害ごみ-Hazardous” on it. Take out to a “Ordinary Garbage” disposal pit.

“Broken articles (crookery, glass, tableware, etc.)”

Wrap the article in scrap papers. Do not mix in Kitchen Garbage, Put in a bag and write “われもの-Broken articles” on it. Take out to a “Ordinary Garbage” disposal pit.

※As for the items above, be sure to put them in a bag separately from Kitchen Garbage.

“Lithium-ion Batteries and electrical home appliances with built-in Lithium-ion Batteries”

It causes fire. Never put them in ordinary garbage disposal bags.

※When you dispose of small sized rechargeable dry cell batteries (Lithium-ion Batteries), bring them to recycle cooperating stores such as retailers of those batteries. As for recycle cooperating stores, please inquire Incorporated Association JBRC (03-6403-5673) for details.

※When you dispose of batteries that are not covered by JBRC collection program and swollen Lithium-ion Batteries, and other electric home appliances with built-in Lithium-ion Batteries, please cover the terminals with tape, etc.(completely insulated), then take out as “METAL” garbage.

※Thank you very much for your continuous understanding and cooperation in reducing garbage and garbage separation by material.
